

Cleanroom Zipper Bags

- Cleanroom ISO class 6 zipper bags
- Widths up to 70" and lengths up to 48"
- Offered in 2mil to 6mil thickness options
- Certified & tested to Level 100
- Suitable for gamma sterilization
- Available in anti-static

Unmatched Quality

- **Protective Zipper Closure:** Double-track zipper seals out dirt and moisture, safeguarding cleanroom supplies.
- **Virgin Resin Construction:** Crafted from ultrapure virgin resins, our zipper bags avoid contamination risks associated with regrind materials.
- **Versatile Usage:** Ideal for use in laboratories and medical device manufacturing, protecting sensitive equipment and components from contamination.

We take pride as one of the few manufacturers to add zipper closures all within a controlled cleanroom environment, consistently surpassing rigorous quality standards, setting us apart in the industry.
